LABELSTIK 250F.Twin

Automatic High Speed Two Side (Front & Back) Flat Bottle Sticker Labelling Machine

The Automatic Vertical Linear Sticker Labelling Machine Model LABELSTIK-250F.Twin, is one of the most user friendly. Suitable for applying Front, Back or Side Labels on Flat/Oval/Square/Round shape containers with output Up to 250 Labels per minute depending on products Shape/Size and label size. Automatic Product Alignment system synchronised with top holding belt system. The Machine incorporates latest sophisticated Micro Processor Control Label Dispensing system with user friendly Sensing system for Label and Product. Machine also available with Optional Wrap-Round System makes it more flexible to use for Applying Single Side or Double Side Label on Flat Bottles or Applying Wrap Round Label on Round Products.

The most versatile, elegantly designed linear labelling machine to meet the needs of major users of modern packaging lines, requiring high efficiency with speed, accuracy and durability. Easy to use adjustments, requiring a minimum tools or change of parts. Machine can be designed and supply with Feed Screw System as well as with optional Robotic type Twin Moving Pocket System to ensure perfect alignment of oval shape Bottles on conveyor for precise Labelling application. Selection of Product Stabilizing system is depending on Product Shape, Size and required speed but as a Standard Machine having Feed Screw type system for bottle shape / size which require as a change parts for change in Bottle Size.

The Sticker Labelling Machine LABELSTIK-250F.Twin has its own unique single point synchronised speed control system. The Inbuilt Automated Label Length detection systems eliminates any need for manually feeding and storing of Label Length data in memory and retrieving the same every time for change of Label Size & re-starting the machine. The System thus saves valuable time, avoiding machine-down time, and helps achieve higher production. Machine can be supplied with Optional Toughened (Tampered) Glass or Acrylic Safety Cabinet. Machines having required all basic features as a standard fitment to match the current market needs and also saves cost and time.

Machine can be designed specially for applying Double Side Flat bottles as well as body / wrap-round labels on Round Bottles as a Optional Features.
