LABELSTIK 120C

Automatic Carton / Pouch Sticker Labelling Machine

The Automatic Sticker Labelling Machine Model LABELSTIK-120C, is one of the most user friendly. The Machine incorporates latest sophisticated Micro Processor Control Label Dispensing system with user friendly Sensing system for Label and Product. The machine is suitable for applying *Top Side* Labels on flat Cartons/Pouch, applying Single Security Label on Cartons in "L" shape. Machine also available with *Side* Label Application of Single Label in "L" Shape on Cartons or with Twin Label Dispenser to apply "L" shape label on Cartons. Machine can be used for Self Adhesive Paper Labels, Film Labels or Hologram. It is capable of Labelling up to 100 units per minute depending on Product Size, Shape, Product movement direction and Label size. Machine suitable for all type of Pouches and Cartons. Machine can be used for Off-Line or On Line application.

The Sticker Labelling Machine LABELSTIK-120C has its own unique single point synchronize speed control system. The Inbuilt Automated Label Length detection systems eliminates any need for manually feeding and storing of Label Length data in memory and retrieving the same every time for change of Label Size & re-starting the machine. The System thus saves valuable time, avoiding machine-down time, and helps achieve higher production. Machines having required all basic features as a standard fitment to match the current market needs and also saves cost and time. Machine also available with optional special features of applying Twin Label on products from Single Label Roll or application of Label on product at regular intervals.
